WEYMOUTH, MASS., AS SECOND-CLASS MATTER.

FRIDAY, APRIL 2, 1897

The committee appointed at the town meeting to investigate certain acts of the selectionmen have begun work and will have its first public hearing in Engine Hall, Ward 3, Tuesday, April 9th at 7:30 p. m. See ad.

What shall we do with the great army of unemployed? It is the question which is agitating the minds of philanthropists and economists all over the country. In Weymouth this need is less pressing, as most of the people here have hundreds of acres of unoccupied land which might be utilized and not only give occupation to the unemployed but give them a chance to make comfortable homes. The only difficulty is that half can be made to produce all the way of vegetable and small fruits. It is a mistaken notion that Weymouth is an agricultural town as can be cited from a large number of people who have no knowledge of agriculture, and are not willing to dooms of factories but have added materially to their table from the land lying idle.

**New High School Building.**  
The committee appointed to carry into effect the vote of the town in regard to a new high school building met in the Jefferson Room on Tuesday evening, and having proceeded to name the several locations on which the sub-committee had reported as available places for a new structure, and after hearing them all over settled upon a tract of land belonging to Thomas Orton.

This is a tract of four and one-half acres about three miles west of North Shaw's corner, is on the west side of the street and is the site for a school house, and there ample ground around it. Like any other lot would may have been selected, it is open for some criticism, but comes as near giving universal satisfaction as could have been expected.

**Investigation Committee Hearing.**  
The committee appointed by the town to investigate the acts of the Selectionmen will meet at the Engine House, Ward 3, at 7:30 p. m., Tuesday, April 9th, and all persons who desire to present, with witnesses, will please be present, with witnesses, prepared to substantiate their charges. All testimony will be taken under oath.

ARTHUR C. HEADS,  
Treasurer of Committee.

**Death of Joseph D. Shiles.**  
Joseph D. Shiles, well known spiritualist, died Tuesday night at about three o'clock in the morning, from a fall sustained two weeks ago. Deceased was 68 years of age and was one of the most prominent spiritualists in the country and for many years had lectured and given seances in every part of the country. He was born in Weymouth and when young learned the printers trade working for the late Sylvanus Cobb who at that time published the Universalist paper the "Trumpet" after learning his trade he became a printer and publisher and has been a printer and teacher himself for nearly half a century, and was now all know over the United States.

He had been a resident of this town for nearly fifty years. He never married; two sons, Mrs. J. H. H. Williams and Mr. Joseph Crocker. The funeral will take place from his late residence this afternoon.

**Superior to All Others.**  
One of the largest retail grocers in New Haven, H. M. Tracy, writes as follows, to *Weymouth Gazette*:—  
On Feb. 15, 1877, there was directed to our store 426 boxes of Sun Paste Stove Polish under the following guarantee, namely, that if Sun Paste was not good or better than any paste polish then in the market, we would give them in exchange for the paste in the box. Now remember this, out of those 426 boxes there was not one returned. On the contrary several ladies have voluntarily told me that it was the very best that they had ever used. In a thirty days' time we had this paste to sell more than 200 boxes, and in no instance have we had a customer refuse to take it the second time; these are facts that a good house-keeper should remember.

Signed,

H. M. Tracy, Grocer,  
379 Congress Ave.,  
New Haven.

He will see you at all times and pay all remands against said item. FRED J. HANYES,  
East Weymouth, April 1st, 1897.

### Carrying Wall Paper.

Any one knows how much human taste can vary until he has dealt for a little while in wall papers.

The wall paper dealer has to carry a large and varied line out to sell, to get the trade. If he can't do it he might as well give up. Many do.

But a wall paper man should do more than sell all thes. He should guide wavering tastes and try to improve bad ones. This is what we endeavor to do. Not by telling people that their taste is bad, but by not keeping paper that is in actual fact taste.

Bring a collection of penfolds and selectings by our German.

The German agricultural papers say that the imports of American apples into the German market last year were the largest since a large crop in any previous season, the shipments in 1890 having amounted to less than 10,000,000 double cartons—the center being equal to a hundred weight.

Five-thousandths of those who wear glasses have different vision in each eye. Sometimes it is a decided difference, in others only a slight variation. A careful examination will fail to bring out this defect, the same lenses would be adjusted to each eye and head and eye strain that needlessly fails to relieve the result. I test each eye separately, select proper lenses, adjust glasses to suit both eyes from a complete Test Case made.

Carrying  
Wall Paper.

No one knows how much human  
tear and misery until he has seen  
it while in wall paper.

The wall paper dealer has to carry a  
large and varied line in order to get  
the trade. If he can't sell he might  
well give up. Many do.

But a wall paper man should demand  
more than sell wall paper. He should guide  
wavering tastes and try to improve  
them. He should be a wise and  
courageous leader. His children  
doing excellently much credit is  
due Mrs. F. A. Suits who had the affair  
in charge.

The leading bicycle - The Weymouth  
is the best. It is the standard  
bicycle while out driving. His home  
got a bicycle and ran to the railroad track near the East Braintree  
station. The doctor was thrown out and the carriage badly damaged but the doctor  
escaped.

John and Charles Willoughby are ill  
with the mumps.

School vacation will be extended one  
week. The spring term will begin May 3,  
instead of April 26.

The concert under the auspices of  
the Baptist Sunday school held in the  
auditorium of the church was one of the  
largest attended concerts of the kind ever  
given here, some six hundred people  
being attendance. The school was  
assisted by Mr. and Mrs. F. A. Suits  
in charge of the piano. Mr. and Mrs.  
Morgan of Chelsea and Mrs. Arthur  
and Eugene Murphy rendered acceptable  
selections. The male and mixed quartettes  
were well rendered especially the Way  
Sideers (by request). The concert  
brought in a large sum which will be  
used for the benefit of the school.
